Email: rakeshboya8@gmail.com

Mobile: +91 9704378386

SKILLS

Languages: C, C++, Python, Java, HTML, CSS

Databases & Querying: MySQL, SQL, TiDB Cloud

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Streamlit

Tools/Platforms: Git, GitHub, VS Code

Soft Skills: Problem-Solving, Team Player, Adaptability

PROJECTS

Deadlock Detection & Recovery Toolkit | C, Operating Systems, Algorithms, HTML Nov' 25

- Implemented an Operating System deadlock toolkit in C, demonstrating deadlock detection and recovery concepts through modular and structured programs.
- Implemented the Banker's Algorithm for safe resource allocation and deadlock avoidance, along with Resource Allocation Graph (RAG) concepts for analyzing resource dependencies.
- Developed and organized modular C programs with test cases, enabling systematic testing of deadlock-handling algorithms and resource allocation scenarios.
- Created project documentation and a web-based project interface using HTML, and maintained the complete source code and documentation using Git and GitHub.

Indian AI Property Marketplace | Python, Streamlit, Scikit-learn, MySQL/TiDB Cloud, ML Sep' 26

- Developed an owner-direct real-estate marketplace using Python and Streamlit, enabling buyers and sellers to register, list, search, manage, and save properties without intermediaries.
- Built an ML-based property valuation system using Scikit-learn Extra Trees Regressor, utilizing BHK, property type, location, and area to estimate property prices and price per sq.ft.
- Implemented role-based authentication, property management, image uploads, favorites, search/filtering, sold-property tracking, and limited owner-contact access for a complete marketplace workflow.
- Integrated MySQL/TiDB Cloud for persistent storage and deployed the web application on Streamlit Community Cloud, with source code maintained using Git and GitHub.

TRAINING

Centre for Professional Enhancement, Lovely Professional University Jul' 26
Basics of Data Structures and Algorithms |

- Completed a skill development course covering Basics of Data Structures and Algorithms.
- Achieved an A Grade based on performance during the training.

CERTIFICATES

C++ | Infosys Springboard Aug' 25
Artificial Intelligence Essentials | Sep' 26
React.js | Tech Veda Mar' 25
Data Management System | Infosys Springboard Aug' 26

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 24 – Present
Computer Science and Engineering; CGPA: 6.32

Prathibha Junior College Mahabubnagar, Telangana
Intermediate Mar' 22 – May' 24
PCM; Percentage: 98%
SSC Percentage: 100%
